PPSHA: Provider Login

The screenshot shows the PPSHA website with the 'Providers' dropdown menu open, highlighting 'Provider Logins'. The main content area is titled 'Provider Value Proposition' and contains the following text:

Provider Value Proposition

We provide tailor made solutions with a commitment of true partnership

At PPS Healthcare Administrators we believe in providing tailor-made solutions that enrich the lives of professionals. PPSHA is a wholly owned subsidiary of the Professional Provident Society Insurance Company Limited. PPS is a mutual company, meaning all profits go back to the members. No doubt, this ethos of mutuality, for the sole benefit of members, has influenced the way we at PPSHA define our own relationships with our clients.

The purpose of medical schemes is to provide for the healthcare needs of members when they need it most and ours, as PPS Healthcare Administrators, is to enable medical schemes to deliver on this purpose as efficiently as possible. Providers are the key enablers to achieving successful, value-added outcomes for our clients therefore we value this partnership.

Our provider relations team brings a partnership to providers with a member centric focus.

The PPS Healthcare provider relations team will help you secure your practice for the future by:

- Offering you a bespoke service
- Providing access to medical scheme networks
- Engaging with you on value-based contracting
- Providing dedicated support services
- Ensuring seamless administrative processes including more frequent payment runs
- Providing digital enablement with a view to future proofing your practice
