Dear Provider

With all medical schemes now having announced their contribution increases for 2024, we are proud to say that KeyHealth still has the lowest average increase in the industry. With substantial value-added enhancements to our benefits. KeyHealth Medical Scheme is guided by a fundamental question: "How can we give our members more?" KeyHealth's commitment revolves around providing more health benefits for everyone, delivering more healthcare whenever members need it, offering more simplicity in a world filled with chaos and confusion, and ensuring more value for every rand spent. Through these efforts, KeyHealth aims to create an experience where members consistently encounter real value that speaks for itself.

As service providers to KeyHealth members, having a clear understanding of benefit design and option-specific information is vital. This knowledge is essential to ensure the effective servicing of members and accurate billing to the Scheme.

The information below serves to highlight specific benefits and option changes only. For more detailed information please access the KeyHealth website at www.keyhealthmedical.co.za

- All benefit limits have been increased by 5%.
- Virtual GP consultations via Dis-chem Clinics
- Removal of impacted teeth included for in- or- out- of hospital on the Essence option
- Major depression included as a chronic condition on the Silver and Equilibrium options.
- Enhanced Child Booster benefits for the Silver, Equilibrium, and Origin options: hearing screening for newborns (0-8 weeks) and eye tests for children (0-7 years)
- Extended age limit for growth assessments for children (0-7 years) on the Silver, Equilibrium, and Origin options.
- A stool test for colon cancer for beneficiaries aged 50-75 years on the Platinum, Gold, Silver, and Equilibrium options.
- Enhanced the refractive surgery benefit of R24 000 per beneficiary per lifetime on the Platinum option.
